

FOR THE PROCESS INDUSTRY

## Mechanical Vapour Re-Compressor

SOLUTION  
FOR ENERGY  
CONSERVATION

Lower/Eliminate your Process Steam Consumption  
Better ROI than Alternative Technologies  
Payback Period as Low as **6 Months**

### MVR | MVC

EVEREST Mechanical Vapour Re-Compressor **MVR|MVC** is the latest and first of its kind **Re-Compressor equipment** in India offering Simplicity, Responsiveness and Flexibility of Operation.

AVAILABLE FOR FLOW RATES

200 kg/hr upto 6,000 kg/hr  
 $\Delta P$ : 100 mbar – 1 Bar

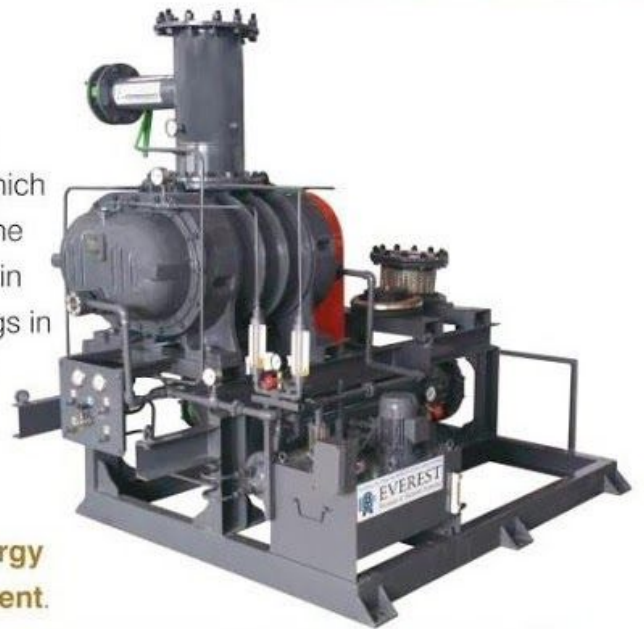

100%

QUALITY ASSURED

#### APPLICATION INDUSTRY

- Zero Liquid Discharge (ZLD)
- Chemical Industry
- Saline Industry
- Sugar Industry
- Dairy Industry
- Pulp Industry
- Brewing Industry
- Alcohol Industry
- and many others...

These specially designed compressors are meant to handle **Steam Vapours** which can be reused to recover the latent heat of vaporization, in turn providing heavy savings in energy and utilities. These compressors act as very efficient pollution-free alternatives. MVR's can typically be termed as **Energy Recovery Green Equipment**.

RELIABLE LOW MAINTENANCE DURABLE INDIGENOUS COST EFFICIENT
